● ABOUT ME

I am a highly ambitious individual who is constantly seeking out new learning opportunities. I do not mind struggling and failing during the learning process, and this mentality has helped me build a solid foundation in problem-solving, critical thinking, and project management. I can think outside the box, come up with ideas, and resolve issues on my own because of my ambition and resourcefulness. I have the ability to know when to ask for help, and I do not hesitate to do so when necessary.
